SALIENT FEATURES

- Outstanding childcare facility
- STEAM-centric learning from early years
- Established educational partnerships
- Hands-on and inquiry-based teaching
- Resourceful library
- Healthy and hygienic meals
- Transportation facilities
- After school child-care facility
- Spacious playground
- Wide range of sports and games
- Diverse ECAs:
  - Yoga and meditation
  - Public speaking
  - Acting
  - Music (Vocal and Instruments)
  - Dance
  - Taekwondo
  - Scouts
  - Handwriting
  - Arts and crafts
- Sanskrit language classes
- Informative audio-visual sessions
- Coding and robotics classes
- Numerous events
- Remedial classes
- Digital tools for parent engagement

The Right Direction

The Velocity School

WHERE STEAM POWERS IMAGINATION

ADMISSION OPEN FROM PRESCHOOL TO BASIC LEVEL

ABOUT US

The Velocity School was established in 2015 with the vision of creating a quality preschool in Mulpani. Set in a peaceful environment, we provide outstanding care, guidance and enriching learning experiences from the earliest years.

Currently, we operate classes from Playgroup to Class VII, ensuring a strong academic and developmental continuum as children grow.

At our core, The Velocity School is a hub for STEAM Education (Science, Technology, Engineering, Arts & Mathematics). Through purposeful partnerships with leading educational organizations, we deliver a learning experience that is holistic, experiential and deeply relevant to the modern world.

OUR VISION

To be a pioneering STEAM-centric learning community that inspires curiosity, innovation and compassion — empowering children to think boldly, learn joyfully and lead responsibly in a rapidly evolving world.

OUR MISSION

Our mission is to support the all-round development of students by:

- Integrating STEAM principles across all stages of learning
- Encouraging inquiry, creativity and problem-solving
- Creating a safe, inclusive and joyful learning environment
- Valuing every child's individuality and potential
- Building strong partnerships with parents, educators and institutions

We believe education is not merely about acquiring knowledge, but about becoming capable, ethical and resilient human beings.

OUR PHILOSOPHY

Every child is unique, capable and naturally curious. We believe learning flourishes when children are encouraged to express themselves, embrace their strengths and respect differences. By fostering independence, collaboration and self-belief, we help students develop a lifelong love for learning.

LEARNING BY DOING

Learning at The Velocity School is hands-on and rooted in experiential learning. Students engage with real-world contexts that help them understand ideas more clearly and apply what they learn in meaningful ways.

OUR PARTNERSHIPS

LAWANYA INTERNATIONAL PVT. LTD

We work closely with Lawanya International to implement the STEAM-based CPS and CPRS curriculums from Playgroup to Grade III. These curriculums support academic development while fostering creativity, collaboration, and communication. Lawanya also strengthens our Teacher Development Program with weekly observations, feedback and workshops.

MERO CODING

In partnership with Mero Coding, students from Grade III onwards are introduced to coding and digital creation. Learners explore game design, app and website development, 3D modelling and basic robotics, building logical thinking and problem-solving skills.

MIDAS E-CLASS
SIMPLIFYING LEARNING

MIDAS eClass provides audio-visual resources for core academic subjects, supported by interactive games and activities. The platform enhances understanding, supports self-paced learning and strengthens students' academic foundations.

Karkhana

Through Karkhana Science, students take part in hands-on science activities that encourage questioning and exploration. Karkhana also provides teacher trainings and access to quality resources to support effective classroom teaching and meaningful science learning.

Vaav

With VAAV, students participate in age-appropriate Social-Emotional Learning programs that support emotional awareness, empathy and wellbeing. These sessions help children understand emotions, build healthy relationships and develop focus for learning.

PAVILIONS CHESS ACADEMY

Our collaboration with Pavilion Chess Academy offers weekly chess sessions for interested students, guided by a trained chess coach. Chess supports concentration, planning and decision-making, contributing positively to academic learning.

Veda

Through Veda, student records such as attendance, homework, assessments, fees and library use are managed digitally. Parents can access this information through The Velocity School App, available on both Android and iOS, supporting regular school-home communication.
